**FOUR SEASONS
HOTEL
JAKARTA**

Opened in late June 2016, Four Seasons Hotel Jakarta is ultra-luxury all-suite hotel situated within the Capital Place mixed-use development, an iconic luxury landmark, situated in the heart of international commerce, entertainment and financial district in a prime Central Business District location in Jakarta, Indonesia.

A sanctuary tucked well away from the main road, Four Seasons Hotel Jakarta features 125 executive suites offering panoramic views of Jakarta's skyline. The architects of the development are the internationally acclaimed Pelli Clarke Pelli Architects Firm, whose design celebrates the Indonesian architectural principle of transparency between indoor and outdoor spaces. The neo-classical-inspired hotel interiors, designed by the renowned New York interior designer Alexandra Champalimaud, will gracefully complement the impressive outdoor spaces created by tropical urban landscape designer Bill Bensley.
